

GEOENGINEERING AEROSOL SPRAYTRAILS & THE PLASMA “ENVELOPE”

CIRRIFORM “PAINT” WELL-BELOW 30,000’ IS SPRAYED FROM JETS

- **Artificial overcast** ... loss of true-blue skies
- According to Solar Experts: Has **cut solar radiation** at least 25%
- **Increase in rickets** – Vitamin D deficiency
- Puts a “CAP” on air column
 - **Magnifies storms** and increases lightning strikes
 - **Traps gasses and heat in envelope**
 - **Creates artificial warming**

SOLID PARTICLES OF METAL COMPOUNDS FALL TO EARTH

(Aluminum, Strontium, Boron, Barium, + many other metals in nano (manmade) size)

- **Ionize the air column** creating a plasma
- **Magnify HAARP transmissions – “Force Multiplier”**

METALLIC HAZE EXTENDS ALL THE WAY TO THE GROUND

- Ionized air column **increases wildfire flammability**
- **Fires** are now outside firefighters’ experience
- **Respiratory problems** and significant health effects
- **Water and snow pollution to toxic levels**
- **Soil pollution significantly changing soil pH**
- **Threat to all life species and ecosystems**
